First Class Letter Services

First Class is our fast UK mail service for items not requiring a signature. We aim to deliver all First Class items of mail the next working day, which makes it a popular choice. The price of our First Class service is the same to anywhere in the UK, and the amount you pay depends on the weight of the item you are sending.

Business Pricing A new discount for all Franking & Account customers on their First Class mail means that First Class prices for these customers are less than standard stamp prices. Please remember to use European stamp prices when mailing to Southern Ireland.

Franking

Give your mail a professional image. Franking is a simple and efficient way of adding postage to your mail and a secure way of controlling your postal budget. There is no minimum amount of mail you need to send.

Franking customers who manually select the correct postage on their machine will need to refer to the new prices shown in the tables within this booklet from 7th April 2005. If your franking machine or scales uses a tariff rate chip to determine the correct postage, your manufacturer will contact you in advance of this date to arrange for your chip to be updated.

Second Class Letter Services

Second Class is our low cost UK mail service. We aim to deliver these items by the third day after posting. Like our First Class service, the price of our Second Class service is the same to anywhere in the UK, and the amount you pay depends on the weight of the item you are sending.

Mailsort®

If you send large volumes of mail in the UK, you can make substantial savings by doing some of the sorting yourself. The amount you save depends on the size and weight of the mail you are sending, how quickly it needs to be delivered, and the amount of sorting you can do.

OCR (Optical Character Recognition) requires that you print the address on your mail using certain typefaces, to a prescribed format.

CBC (Customer Barcode) requires a barcode to be added to all items of mail which holds the Postcode and delivery point information.

Mailsort® 120 OCR

For sending letters below 100g, with a minimum posting of 4,000 items. All mail should be fully addressed and postcoded using an OCR (Optical Character Recognition) font.

Mailsort® 120 CBC

For sending letters below 100g, with a minimum posting of 4,000 items. All mail should be fully addressed and postcoded and display a customer barcode.

Mailsort® 700 CBC

For sending letters below 100g, with a minimum posting of 10,000 items. All mail should be fully addressed and postcoded and display a customer barcode.

Do you send your customers advertising mail packs which invite them to respond by mail? If so, you could make big savings with mailmedia. This exclusive service combines the cost of your outbound advertising mailing with that of your inbound replies to bring you substantial discounts. Airsure™

The fastest and most reliable way to send important mail abroad. With Airsure your international mail leaves the UK on the earliest possible flight, receives priority handling abroad and is electronically tracked so you can check on its progress. Additional compensation options are available. The service is only available to a selected number of destinations.

(Please note that because Airsure is delivered by other postal administrations abroad, tracking outside of the UK and confirmation of delivery cannot be guaranteed).

International Signed For™

If you're sending items overseas, this service gives you extra peace of mind. Electronically tracked until it leaves the UK, your mail is despatched on the first available flight and receives a registered (signed for) delivery. Additional compensation options are available.
