# INTELPOST IN ACTION

For sending urgent documents across the country or across the world, you can't beat the Intelpost service. Even for companies with their own Fax machines Intelpost offers important benefits.

Using high-speed electronic facsimile equipment, Intelpost transmits clear black and white copies of originals to any destination covered by the national and international Intelpost network.

It's fast, convenient, reliable and available through your local Intelpost office with an optional messenger service for swift collection and same-day delivery in most areas.

# 1

## CASE 1: NEITHER PARTY OWNS A FAX MACHINE

Take your originals – text or graphics – to your local Intelpost office. Copies will be rapidly transmitted to the nearest Intelpost office to your contact for him to collect.

NOTE: Messenger facilities can make it a same-day, door-to-door service in many areas. N

# 2

## CASE 2: SENDING TO A FAX MACHINE OWNER

If your contact owns a Fax machine, Intelpost can transmit direct to it. Simply phone your local Intelpost office and we'll send a messenger to collect your originals and do the rest.

NOTE: Messenger facilities can make it a same-day, door-to-door service in many areas. N

# 3

## CASE 3: FAX MACHINE OWNER SENDING TO A NON-USER

As a Fax machine owner you can improve communications with non-users by transmitting direct to any UK Intelpost office for your contact in the area to collect. For this you need to open an Intelpost account – a simple formality.

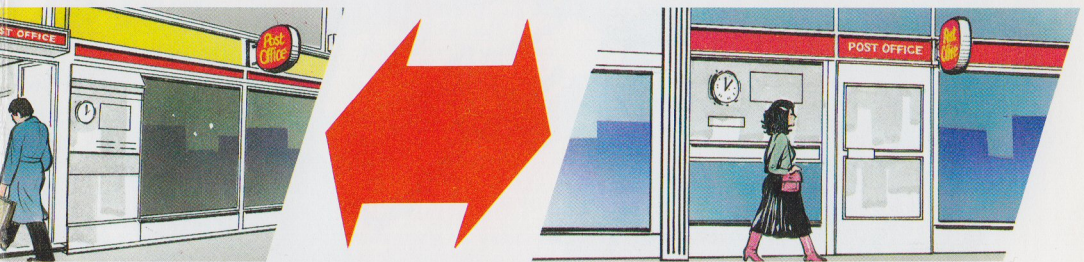

NOTE: Messenger facilities can make it a same-day, door-to-door service in many areas. N

Intelpost transmission from one centre to another usually takes two minutes or less. It's like a long-distance photocopier service! Compared with any other means of forwarding urgent data with absolute accuracy, Intelpost wins hands down.

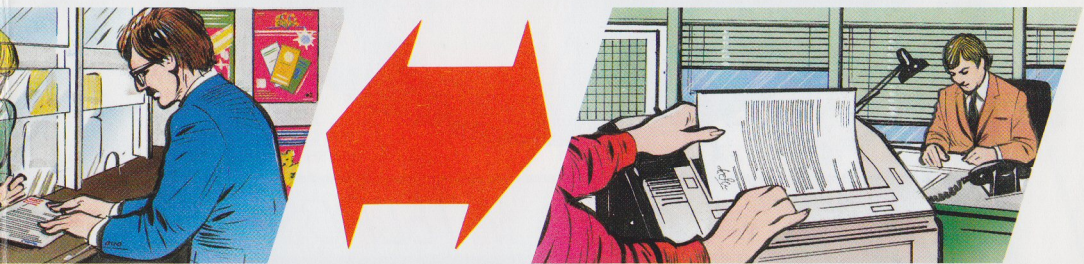

Just imagine what a difference it can make to your organisation when you're up against time and distance, and a customer or colleague is waiting for vital information.

Intelpost is tailor-made to help any business operate more efficiently. Companies without Fax equipment of their own now have easy access to all its advantages, and if you do have your own Fax machine, Intelpost opens up new ways for you to use the equipment more effectively.

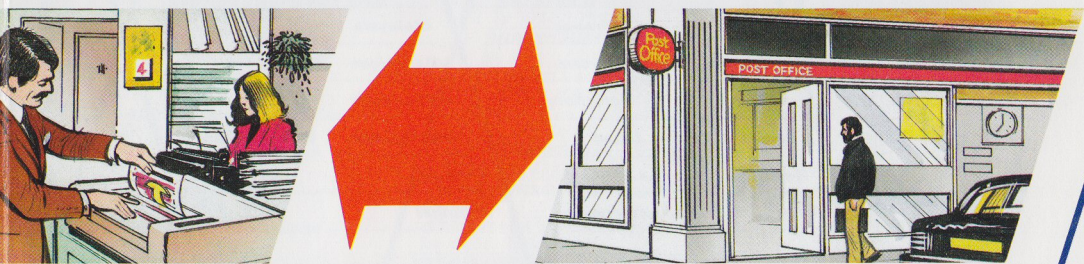

**Judge the convenience of Intelpost for yourself...**

Nothing could be simpler and surer than Intelpost – the Fax service at your Post Office.

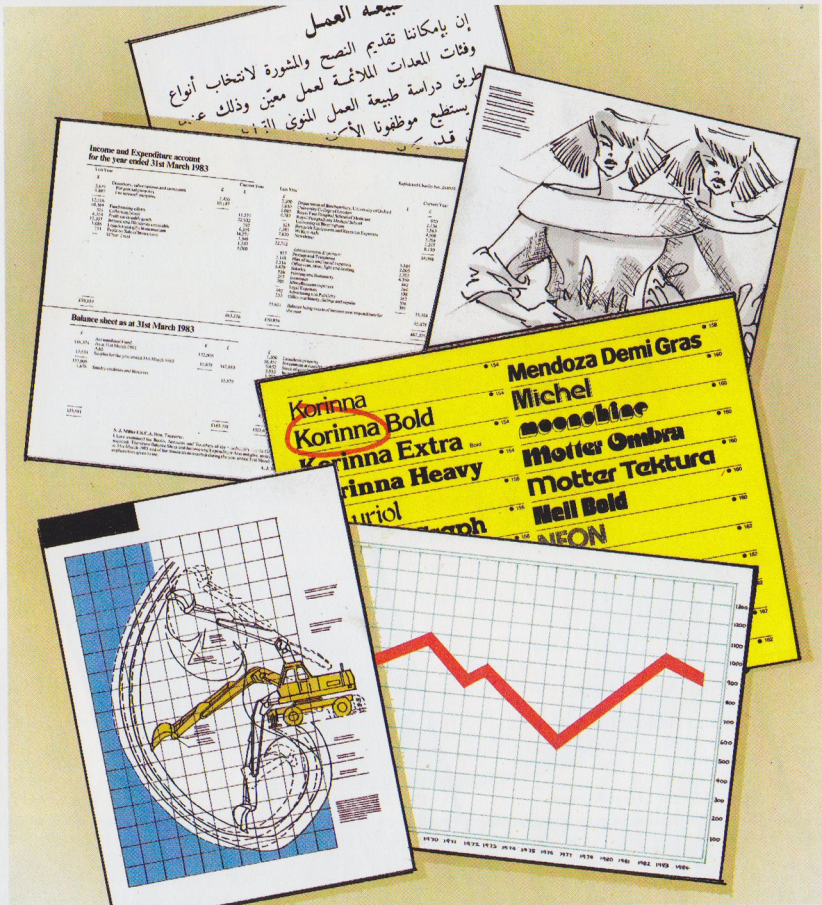

Nothing could be simpler and surer than Intelpost – the Fax service at your Post Office.

Nothing could be simpler and surer than Intelpost – the Fax service at your Post Office.

# GETTING THE MOST FROM INTELPOST

One of the great strengths of Intelpost is its versatility for handling different forms of data.

As long as the original to be copied is no larger than A4 size, Intelpost is equally adept at dealing with text or graphic materials.

It takes typed, printed or handwritten words in its stride. So it's ideal for transmitting crisp, clear copies of letters, financial reports, quotations, contracts, statistics or other documents.

And when you're in a hurry to get graphs, diagrams, drawings or layouts to a distant location, you can depend on the speed and clarity of Intelpost.

In fact, if you can photocopy it, you can Intelpost it!

And, of course, since Intelpost reproduces your original data, you can be sure of consistent accuracy. Unlike telex, no transcription is involved, so no confusing errors can creep in.

# OPENING AN INTELPOST ACCOUNT

An Intelpost Account makes the service even more convenient. All your transactions through any Intelpost offices can be charged to the account—including messenger services—and you are invoiced monthly.

This facility is available to all regular Intelpost users—companies and individuals—irrespective of whether you have a Fax machine of your own.

Opening an Intelpost Account is FREE. Get full details from your local Intelpost Sales Representative, or dial 1 800 800 800 and ask for 'FREEFONE Intelpost.'

## Intelpost

### Application for a Credit Account

The Post Office will be pleased to consider application for credit account facilities for Intelpost cleared purchases. If you intend to use the service regularly, then please complete the following information and return it in an envelope addressed to: FREEFONE Postal, 2025 Finchley Square, LONDON EC2A 4PH

# FAX AND FIGURES

There are well over 100 Intelpost offices in the UK, covering main towns and cities. Internationally, Intelpost is your facsimile communications link with over 1,000 major business communities worldwide.

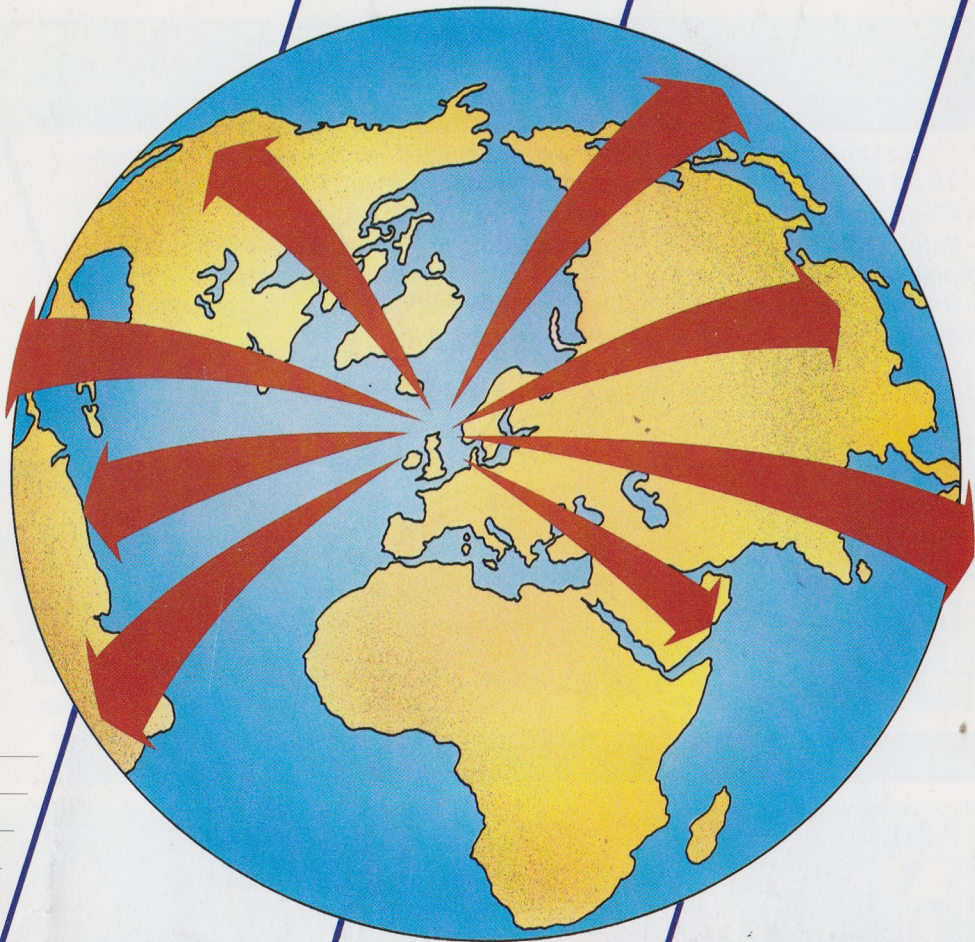

More than 30 million people have local access to the service in this country, while no less than 450 million are covered overseas. It's already a vast network and it keeps growing, bringing the speed and reliability of Fax communications within easy reach of countless companies.

Next time you need to send information fast, use Intelpost. The cost is reasonable, the performance unbeatable.

# MORE FACTS

For further details about Intelpost in this country and overseas, the areas covered for local delivery, latest acceptance times for same-day service and current prices and discount scales, contact your nearest Intelpost Office (see over), your Postal Service Representative at your local Head Post Office or your nearest Datapost Service Centre.

If you prefer, you can write direct to us at Intelpost, Royal Mail Marketing, Grosvenor Place, London SW1X 1PX or ring us during normal office hours by dialling 100 and asking for FREEFONE INTELPOST.

## INTERNATIONAL INTELPOST

Copies of documents can be transmitted to all these countries in just minutes. The international Intelpost network is expanding rapidly, so for the most up to date information and for transmission instructions contact either your nearest Intelpost Office or telephone FREEFONE INTELPOST.
