NOTE.—Copies of this leaflet can be obtained on request at any Post Office. A copy of each further issue will be sent free of charge to any address on publication if application for this service is made at a Head Post Office.

I.—LETTER AIR MAILS.

1. Any kind of letter packet may be sent by Air Mail, that is, letters, postcards, printed papers and commercial papers, and samples. The limits of size and weight are the same as for similar correspondence sent by ordinary post. Air Mail letters can be accepted for **registration**, but **insurance** is limited to letters and boxes for Holland and Switzerland. The ordinary arrangements for **express delivery** and the use of the green label system (for articles liable to Customs duty) apply.

2. A **special blue Air Mail label** must be affixed to the **top left-hand corner** of **every Air Mail packet**. These labels may be obtained **free of charge** at any Post Office. **Letters bearing a manuscript indication "By Air Mail" will be accepted, but no responsibility can be accepted for any delay they may incur.**

3. **Stamps to the full value of the postage** (*see* pages 3, 6 and 7) must be affixed at the top right-hand corner of the address side of the envelope. **If the proper amount is not prepaid, the packet cannot be sent by Air Mail. Special attention is drawn to the fact that the rates of postage for correspondence for countries outside Europe are for a weight of half an ounce.**

A letter containing more than the ordinary double sheet of notepaper is likely to be over half an ounce in weight.

4. Particulars of the letter air mail services available are given on pages 3, 6 and 7. For **latest times of posting** apply at local Head Post Office.

II.—PARCEL AIR MAILS.

5. **The General Regulations of the Imperial and Foreign Parcel Post apply, e.g.,** as regards maximum weight and dimensions, Customs Declarations and Despatch Notes, Supplemental services, Compensation, etc.—on which points *see* the Post Office Guide. Air parcels cannot, however, be insured except in the case of those for Holland and Switzerland.

6. **Accepting Offices.**—Air parcels may be posted at any Post Office which accepts parcels for places abroad. Air parcels **exceeding 11 lb. in weight** are accepted at the same Offices and under the same conditions as similar parcels for transmission by ordinary post.

7. **A special blue Air Mail label must be affixed** close to the address label of the parcel (close to each address if the parcel is addressed in more than one place) and to the relative Despatch Note and, in the case of Cash on Delivery parcels, to the Trade Charge card. The words "Air Mail" should also be written conspicuously on the cover of the parcel. The sender must also prepay, in the usual way, the appropriate rate of postage as shown on page 8.

8. In addition to rapid transit by air service, an air parcel is usually given speedy Customs clearance abroad. **It is important**, in order that these advantages may not be thrown away, **that the relative Despatch Notes and Customs Declarations should be very carefully completed in accordance with the general regulations.**

9. Particulars of the air parcel services available are given on page 8. For **latest times of posting** apply at local Head Post Office.

* FRANCE "Paris only"—Semi-official "service." Air parcels may be posted for Paris and its suburbs, but not for any other place in France. Parcels may not be addressed to a Poste Restante. Imperial Airways, Limited, undertakes the clearance of the parcels through the French Customs and their subsequent delivery, at a charge to the addressee of 8s. per parcel. This charge is exclusive of ordinary French Customs charges. The sender, and not the Post Office or the Air Company, is responsible for seeing that the parcel is addressed to a place which is within the area of delivery. If it is not, the parcel will ordinarily be returned to the sender, who will be liable for all charges incurred. Redirection to places beyond Paris is not undertaken.

Correspondence intended for Air Mail transmission may be posted at any Post Office or in any posting receptacle, but the use of the special Air Mail boxes as a rule gives a later time of posting. The letters, etc., are collected from them by special Air Mail motor vans and conveyed direct to the Air Mail despatching point at the General Post Office, thus ensuring the greatest possible rapidity of transit and certainty of connection.

Correspondence not intended for Air Mail transmission must not be posted in the special Air Mail boxes, otherwise it will almost certainly be delayed.
