

# IMPERIAL AND FOREIGN AIR MAILS

MAY 1946

Special facilities are available for sending correspondence by air to members of H.M. Forces overseas. Particulars may be obtained on inquiry at any post office.

The air mail services are subject to alteration from time to time and particulars of alterations which take place in the intervals between the issue of successive editions of this leaflet may be obtained at any post office.

## SECTION I. GENERAL INFORMATION

### CONDITIONS OF SERVICE

Particulars of the air mail services to Europe and to countries outside Europe are given in Sections II and III.

Second class mail (printed papers and so on) intended for air transmission must be prepaid at the appropriate letter rate for the service intended. The regulations applicable to the letter post service to particular countries (see Post Office Guide) apply also to air mail correspondence except that such correspondence can in no case be accepted for insurance. Where special restrictions as regards limits of weight and registration facilities are in force particulars are shown for convenience in the *Observations* column.

A *blue air mail label*, obtainable free of charge at any post office, must be affixed at the top left corner on the address side to each air mail letter or postcard; alternatively, the indication *By Air Mail* may be written boldly in the same position; but the absence of an air mail label may lead to delay. The name and address of the sender should appear on the back of the cover.

### AIR LETTERS

Air letters may be sent to those countries against which a postage rate is shown in column 4 in Section III. They must be written on the special air letter form obtainable at post offices, or on privately manufactured forms bearing an indication that they have been approved by the Postmaster General: enclosures are not permitted. Air letters are sent by the quickest available route and no special superscription is required.
